

Terms and community rules

FAM BY FAMILIARIZE

FAM turns what you ask and what you follow into short audio stories, and lets you share them, comment on them and talk about them with other people. When you create an account you tick a box to agree to these terms and the [privacy policy](#); using FAM without an account means agreeing to them too. If we change them in a way that matters, the app asks you to agree again before you go on.

Who can use FAM

You must be at least 13 to use FAM. If you are under 18, or under the age of majority where you live, you need a parent's or guardian's permission, and they agree to these terms for you.

Zero tolerance

There is no place on FAM for objectionable content or abusive people. You agree not to post, send, caption or search for anything that:

- harasses, bullies, threatens or intimidates anyone;
- attacks people for who they are, including race, ethnicity, religion, disability, sex, gender identity or sexual orientation;
- is sexual, or involves a minor in any way that is sexual or harmful;
- promotes violence, self-harm or terrorism;
- is spam, a scam, or impersonates someone else;
- shares someone's private information without their permission.

Reporting and blocking

Every comment, message, vibe, profile and episode has a **Report** option in its menu. Reported content disappears for you straight away, and a person reviews every report within 24 hours. When a report is upheld we remove the content, and we suspend the account that posted it.

You can **block** anyone from their profile or a conversation. Neither of you will see the other's comments, messages, vibes, profile or searches, and neither can message or follow the other. They aren't told. You can unblock people in Settings.

Episodes and AI

FAM's episodes are written by AI from the sources it finds, which are shown on the player. They can be wrong. Don't rely on an episode for medical, legal, financial or safety decisions. When you search, FAM asks before sending what you type, say or attach to its AI provider, Anthropic, and a search drawn from it to Exa; you can change your answer in Settings. The [privacy policy](#) says what is kept and who receives it.

What you post

You are responsible for what you post, send, caption, upload or search for on FAM, including your name, handle and photo. You keep whatever rights you have in it. You give FAM permission to store it, show it and play it to the people you share it with, and to use it to run and improve FAM. Photos are checked automatically before other people see them, and anything that breaks these rules can be removed without notice.

Other people's posts are theirs, not ours. We don't check everything before it appears and we aren't responsible for what other people post, though we act on every report.

No warranty

FAM is provided **as is** and **as available**. To the fullest extent the law allows, we make no promises that it will be accurate, complete, uninterrupted or free of errors, and we disclaim all warranties, express or implied, including merchantability, fitness for a particular purpose and non-infringement.

Limits on our liability

To the fullest extent the law allows, Familiarize and the people who work on FAM are not liable for any indirect, incidental, special, consequential or punitive damages, or for lost profits, data or goodwill, arising from your use of FAM, from anything an episode says, or from anything another person posts. Our total liability for any claim about FAM is limited to the greater of what you paid us in the twelve months before the claim, or US\$50. Some places don't allow these limits, and where they don't, they apply only as far as the law allows. Nothing here limits rights you have that the law says cannot be limited.

You agree to cover Familiarize for claims made by other people that arise from what you post or from your breaking these terms.

Apple

If you use FAM on an iPhone or iPad, these terms are between you and Familiarize, not Apple. Apple is not responsible for FAM or its content, has no obligation to provide maintenance or support for it, and is not responsible for any claim about it, including product liability, legal or regulatory claims, or claims that it infringes someone else's rights. If the app fails to meet a warranty that applies, you may tell Apple and Apple will refund what you paid for it, if anything; Apple has no other warranty obligation. Apple and its subsidiaries are third-party beneficiaries of these terms and may enforce them against you. You confirm you are not in a country under a US government embargo and are not on a US government list of prohibited or restricted parties.

Your account

You can delete your account at any time in Settings. Deleting it removes what FAM keeps about you; episodes you searched stay for other listeners without your name. We may suspend or remove accounts that break these rules.

Contact

Email ian@familiarize.net. A person reads every message, and we answer within 24 hours.
